

ACA with EaseCentral

Electronic tracking and reporting that helps you stay compliant and avoid penalties.

Everything you need for ACA compliance, all in one place.

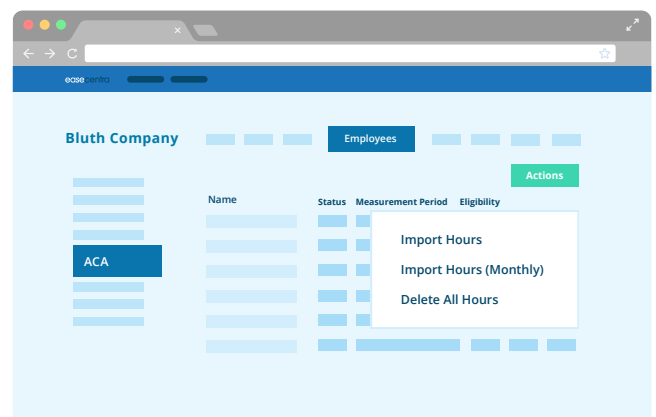

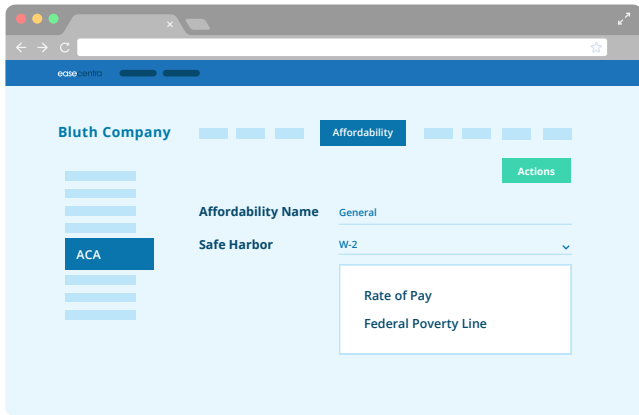

ALE Calculation

EaseCentral's Applicable Large Employer (ALE) calculation informs whether you have to participate in 1094/1095 ACA reporting.

Track Current and Historical Employee Data

Import employee hours worked as well as current and historic demographics and benefits data using EaseCentral-built templates. Eligibility for variable hour workers can be tracked and measured monthly, or by implementing look-back measurement and stability periods.

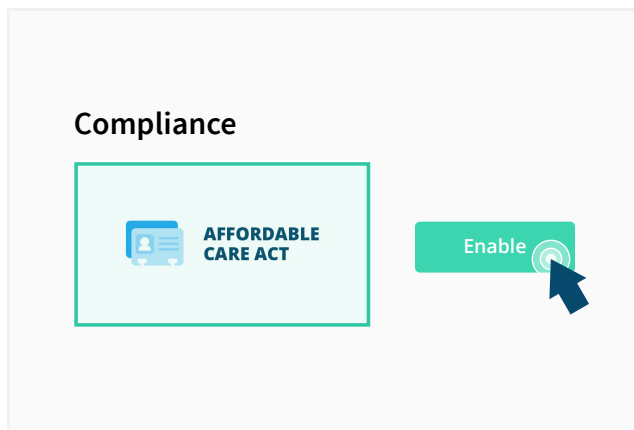

Measure Affordability, Avoid Penalties

We offer three options to measure if your coverage meets affordability standards, using the plan data you already have in EaseCentral: W-2, Rate of Pay, and the Federal Poverty Line. You can also see if your coverage met the ACA's Minimum Essential Coverage standard.

1094-B/1094-C and 1095-B/1095-C Forms

Download completed, signature-ready 1094-B/1094-C and 1095-B/1095-C Forms for your employees and the IRS. We also have partnerships with third parties that can help you electronically submit the forms.
