A COMPLETE HIRING PROCESS TO IMPROVE EFFICIENCIES

Start With Applicant Tracking

Flow to Employee Onboarding

This fast, compliant, and mobile-friendly way to onboard new hires eliminates shuffling of paperwork. Free for our Online Payroll clients; the data transfers right to the payroll system.

Online Payroll is Ready to Pay

Our easy-to-use 3-step Online Payroll system handles your federal, state, and local taxes. Paired with Applicant Tracking and Employee Onboarding, there's no need for double keying employee information.

Bonus: Get HR Advisory for Free

All Online Payroll clients get our HR Advisory service, which provides access to a federal handbook builder, five employee training courses, and HR Web (our online HR Library), for free. Upgrade to HR Advisory Advanced for just \$25/month and get more in-depth HR help.

ADMINISTRATION THAT CONTROLS COSTS

Time Clock

Cut down the time spent manually managing time cards with PrimePay's cloud-based Time Clock system. Our four solutions (Free, Basic, Advanced, and Pro) have a variety of beneficial features from online scheduling to mobile punching to performance management. No matter which solution you choose, each will help you maintain federal and state compliance.

Benefit Services: Pre-Tax Benefit Admin

66% of consumers say planning out-of-pocket medical costs is challenging. Our pre-tax benefits admin solutions (FSA, HRA, HSA, and POP) put consumers in the driver's seat. These solutions have unique plan designs, a portal that eliminates enrollment forms, debit cards mailed to employees, and more!

MEET REGULATIONS & MAINTAIN COMPLIANCE

ACA Compliance Navigator

Our ACA compliance solution reports on variable hour employees and plan affordability, helps produce and file IRS Forms 1094/1095, while providing penalty exposure warnings, checklists, and more.

COBRA Administration

PrimePay makes COBRA admin as easy as 1-2-3. All new hires, terminations, and changes are sent to our COBRA system so we can automatically produce notices and letters.
