

Ease & Paylocity Integration Overview

Ease and Paylocity have partnered to make benefits and payroll easy.

Simple Setup

Enter your new hires into Paylocity and the integration will automatically update Ease with new hire data. After an employee has made any benefit elections or changes in Ease and the changes have been processed under “To-Do” in Ease, the deduction data will flow over to Paylocity, automatically updating the employee’s payroll record.

Open Enrollment

Open enrollment deductions are sent from Ease to Paylocity. Employers should review their Paylocity deductions full-file preview before sending to Paylocity to update all deductions within payroll import.

Payroll & Benefits In Sync

With automated, daily, changes-only demographic files synced from Paylocity to Ease and daily deduction files synced from Ease to Paylocity, accurate employee and payroll data has never been easier to maintain.

How To Activate

[Click here](#) and fill out the form at the bottom of the page to get started with the Ease and Paylocity integration.

If your group already uses Paylocity, reach out to their Paylocity account manager.
If the group is new to Paylocity, contact Paylocity sales at **800-520-2687**.
