

Ease & Colonial Life have partnered to  
make enrollment easier.

Powerful partnership, powerful results.

## Offer online Colonial Life Enrollment

Online Colonial Life enrollment is now available through Ease. Once your client has selected a plan to offer, you can set it up in your Ease Account. Employees will see the Colonial Life plans during their benefits enrollment and can enroll with a few clicks.

## Instant Enrollment

Plan eligibility and enrollment occur directly in Colonial Life's system as the employee enrolls. Employees can access their approval results and costs immediately.

## Access Plan Information & Costs

Information on each plan can be accessed in Ease directly from Colonial Life during enrollment. No need to circulate documents or upload files. Employee contributions are also populated automatically in Ease and are included in an employee's total benefits cost calculation.

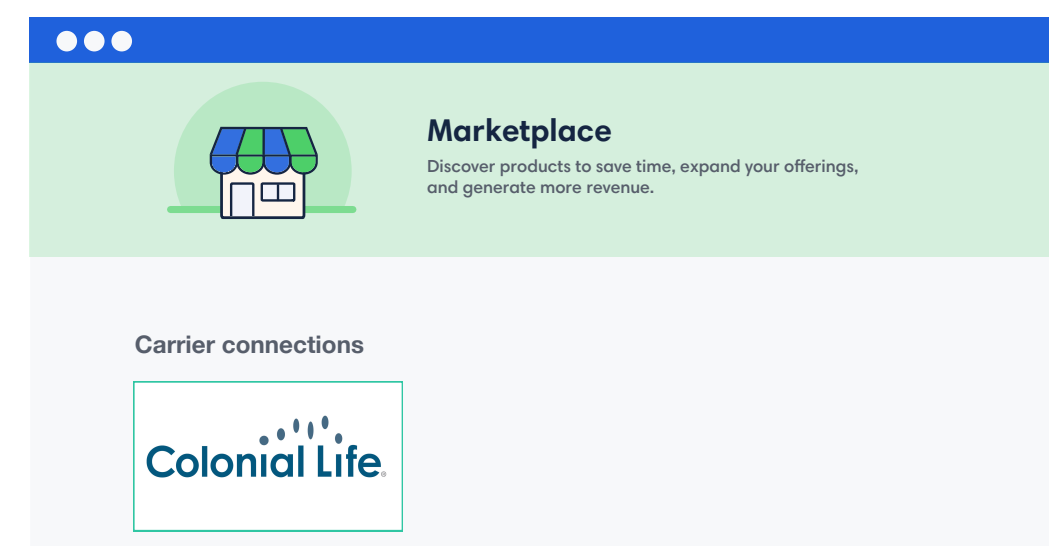

## Direct Submission

Employee enrollment occurs directly in Colonial Life's system via their Ease login, saving time and paperwork for you.

## How to activate

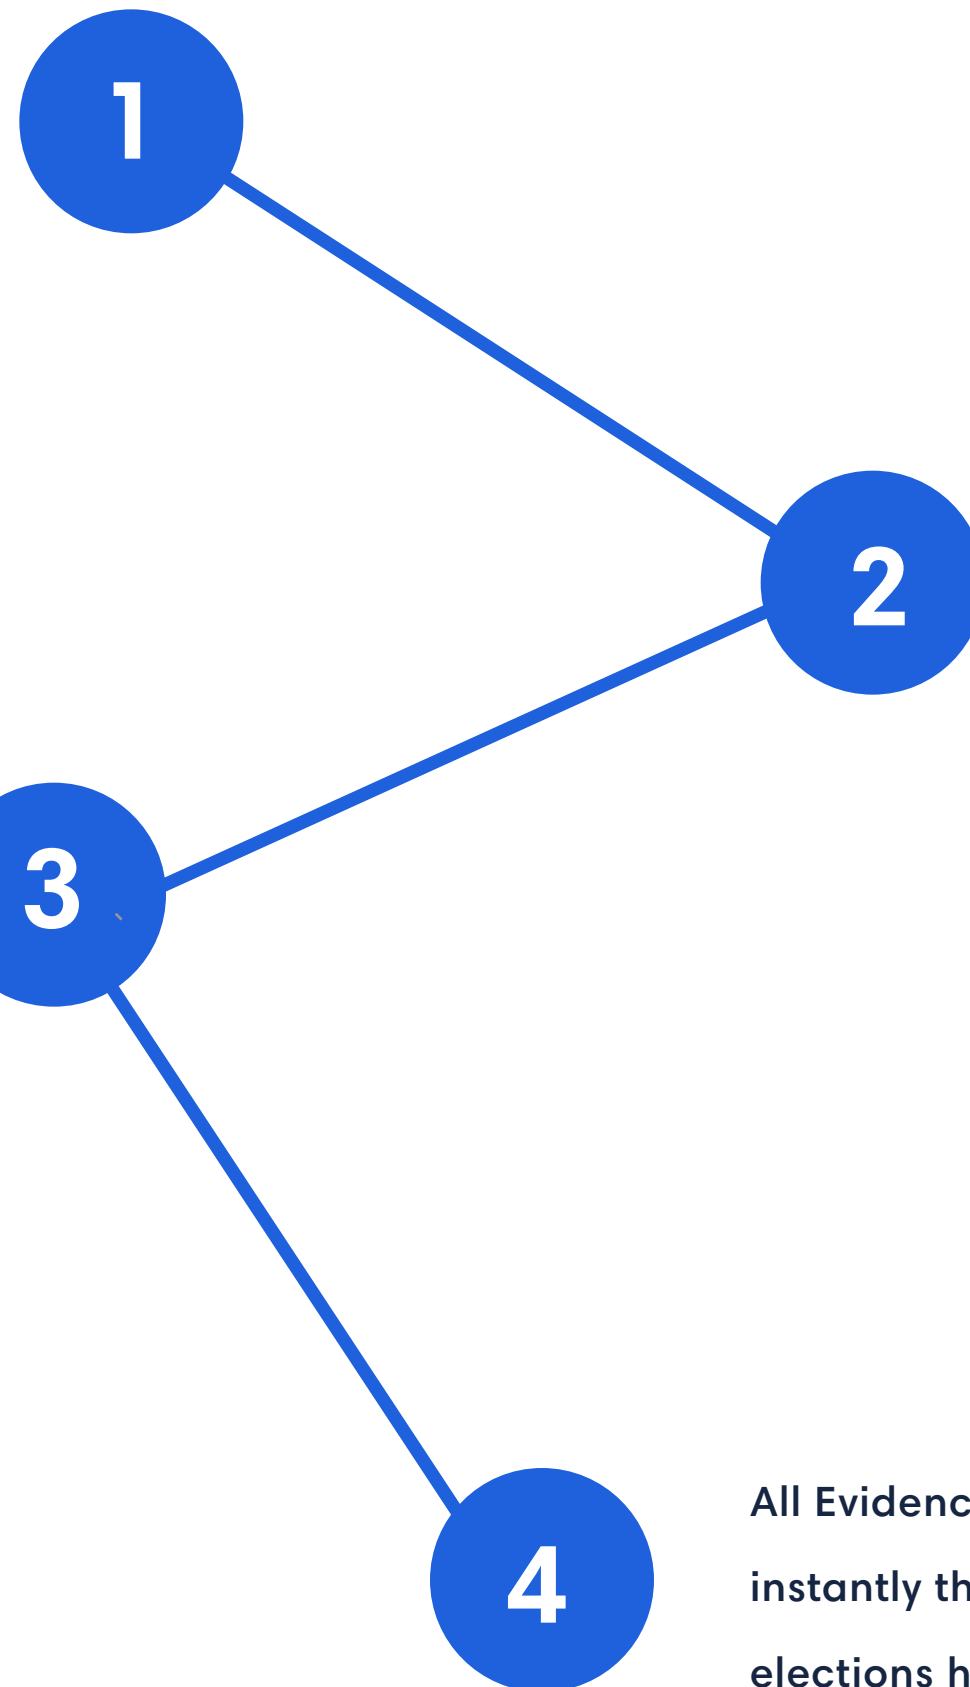

**Enable**

To get started, Enable the Colonial Life connection in the Marketplace.

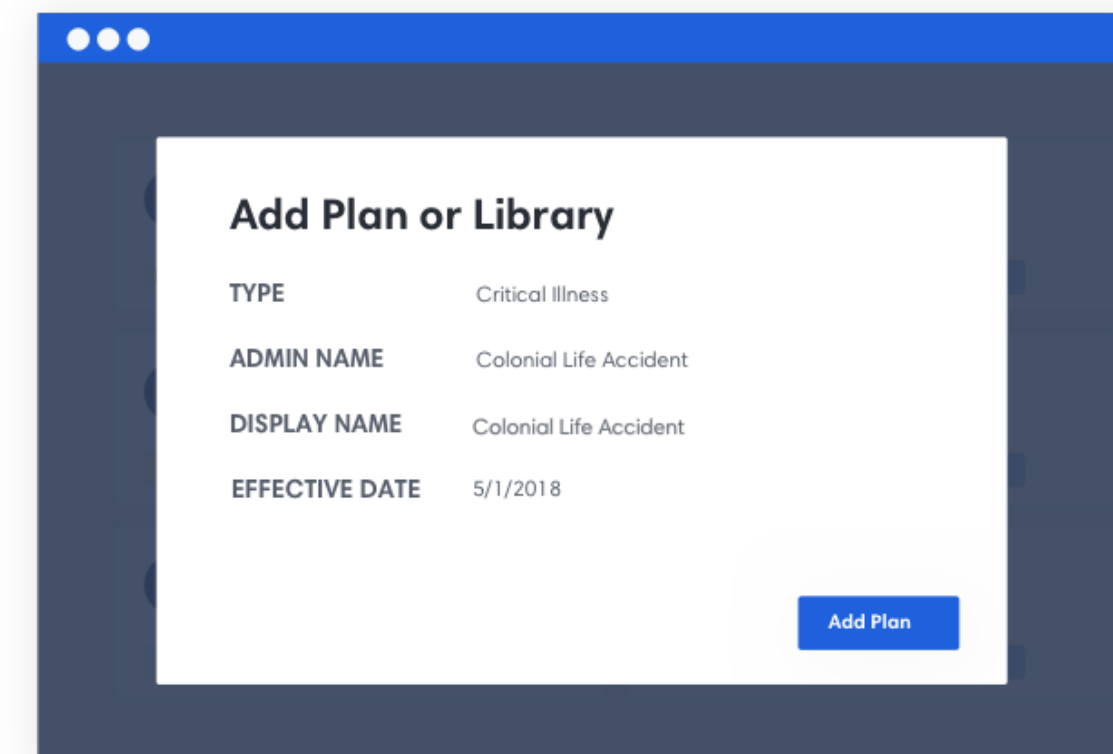

# How it works

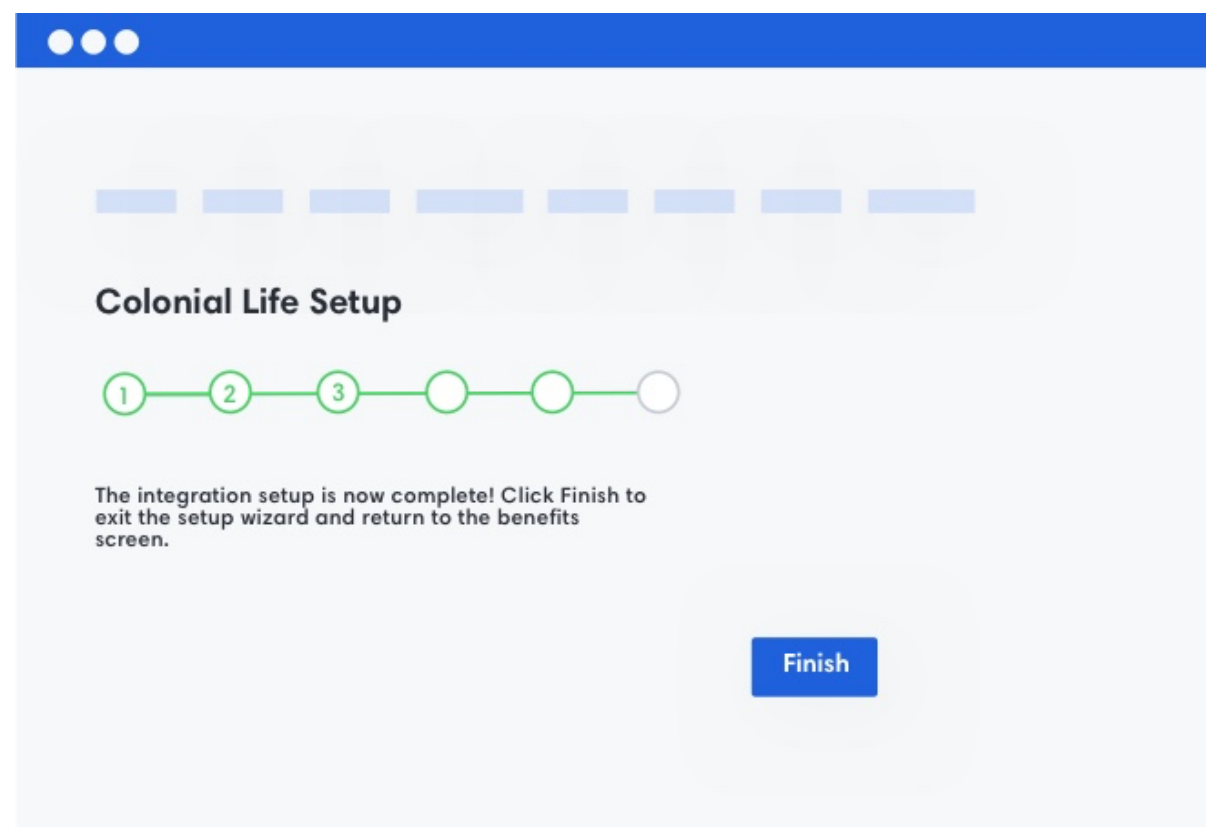

Let your Colonial Life representative know that you'd like to enroll your group in Colonial Life products to set up on Harmony. They'll give you an account key in return.

Add your plans via the Marketplace Setup Wizard. This part will be minimal since Colonial Life is doing the heavy lifting on their end.

The rest of the wizard will guide you through the rest of setup. Once you walk through these few steps, you're ready for Open Enrollment!

All Evidence of Insurability and rate calculations are handled on screen instantly through the connection. Once Open Enrollment is complete, and elections have been made, you're done!
